FLEXIBLE FUNDING SOLUTIONS FOR YOUR BUSINESS

...you want your cash to work hard for you.

Whatever business you are in...

Managing cash flow effectively is vital to the success of any business, regardless of what sector you operate in. You need a flexible source of cash flow to bring your business plans to life, grab new opportunities, invest in new equipment, or simply negotiate the best terms with your suppliers.

We understand that every business is unique, but yet they're all slowed down by the same types of issues, namely cash flow and late payments, as well as the never-ending paperwork that takes up so much valuable time.

At Bibby Financial Services India we want to help and have developed our Invoice Finance solutions to do just that. We know that every business has tailor made requirements and we work with you to ensure the best solution for your business. You'll deal directly with the decision makers, and because we're proudly independent too, we're perfectly positioned to understand your business plans and to help you realise them.

Put simply we do business your way.

We understand how frustrating it is when your working capital is locked away in your business – tied up in unpaid invoices. Then when you want to win a new contract you don't have access to the cash you need and your business plans have to be put on hold.

Flexible funding to help you grow.

Bibby Financial Services India can improve your business' cash flow by providing an immediate injection of cash against the value of your unpaid invoices – up to 85% within 24 hours. The remaining 15%, less our small service fee, will be paid to you once your customers have paid. What's more, we can provide you with an ongoing source of funding that grows in line with your sales.

Allowing you to get on with what you do best.

We also understand that late payments hit cash flow hard and chasing invoice payment can waste valuable time – time better spent growing your business. Bibby Financial Services India will manage your sales ledger and collect payments on your behalf – leaving you more time to concentrate on growing your business.

The right choice for your business.

We want to do business and have earned a reputation for helping where other financial providers can't. We'll provide the level of expertise and tailored support that others often can't match. With our extensive experience and teams of dedicated specialists, we'll work with you to develop the best solutions for your business.

You want simple, flexible solutions, quickly. We make sure you get just that.
